

## Requirements

For us to properly enter a RATING to the National Register the following are required. Please make sure each house is following:

Name of certified Rater or approved inspector

Completed Ekotrop or RemRate file

A PDF of the house plans with enough clarification that our QAD can read all the measurements

The following photos dated and geotagged:

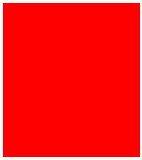

- Front of the house with street number visible
- Example of the insulation in a wall
- Example of the attic insulation
- Window numbers ie. U-Factor and SHGC
- Furnace nameplate
- Condenser nameplate
- Dishwasher nameplate
- Manometer with blower door number
- Manometer with duct leakage number
- Exhaust fan flow numbers using a flow hood or like device
